Orientation in Objects

⟩ Seminar ⟩

SAFe® Program Consultant (SPC) (english)

The first two days of this class is an intensive version of Leading SAFe. The goal is to prepare certified SAFe Program Consultants (SPCs) to teach the course and act as a certifying agent for SAFe Agilists (SAs). You will also gain the knowledge necessary to lead an enterprise agile transformation by leveraging the Scaled Agile Framework and its underlying principles of lean thinking and product development flow. You will leave with an understanding of how the principles and practices of the framework support Agile Teams, Agile Programs, Agile Program Portfolio Management and Agile Architecture. Learn more about Leading SAFe...
In the second two days, you will gain the knowledge needed to identify, plan, and implement SAFe programs with Agile Release Trains. Further, you'll have the briefings, artifacts and templates you need to identify the value streams, prepare the organization, launch agile programs, plan and execute the major events, and implement effective processes and measures for continuous program improvement.

Content

Leading SAFe

- Apply lean, agile and product development flow principles to improve productivity, employee engagement, time to market, and quality
- Apply the Scaled Agile Framework based on lecture, real-world examples, and insights by Scaled Agile experts
- Understand the skills necessary for an enterprise transformation based on the information and examples presented, and additional recommended readings and resources
- Gain the insights into the leadership skill most effective in unlocking the intrinsic motivation of software development knowledge workers, and begin applying them in your context
- Grow the leadership skills necessary to support the transformation

Identify, plan and implement SAFe programs

- Find the value streams around which to organize the enterprise's Agile Release Trains
- Prepare the organization and the teams to launch the trains
- Run the first Release Planning Meeting
- Interact at key program touch-points to "help keep the train on the tracks"
- Run Inspect and Adapt workshops for continuous program improvement
- Introduce the organization to the principles of program portfolio management and agile architecture

Target Group

Internal change agents, external consultants and managers and leaders responsible for implementing agile programs as part of an enterprise Lean|Agile change initiative

Requirements

5+ years of experience in software development, testing, business analysis, product or project management - 3+ years of experience in Agile - One or more relevant Agile certifications (e.g., CSM, CSPO, CSP, CSC, CST, Scrum.org, DSDM, ICAgile, PMI-ACP)

Duration

4 Days , 1. day 10:00 a.m. to 7:00 p.m., following day(s) 9:00 a.m. to 6:00 p.m.

Benefits

- After the course you will be able to lead an enterprise agile transformation
- Implement the Scaled Agile Framework® (SAFe)
- Train managers and executives in Leading SAFe.
- Act as a SAFe Agilist (SA) certifying agent
- Train teams in SAFe ScrumXP
- Act as a SAFe Practioner (SP) certifying agent
